

Moral issue

Check waste containers

Intention

Camera trucks register and fine garbage containers that are outside at the wrong times.

Explanation

Waste containers that are outside at the wrong times lead to mutual irritation and sometimes dangerous situations.

That is why there are camera cars driving around (in many cases combined with cars that are already driving around to fine illegal parkers).

If a waste container is left outside at the wrong time, a warning will follow and in case of repeated violation a fine.
